

Veterinary medicine record

For honey bee colonies in the UK. Every medicine you buy, use or throw away. Keep for at least 5 years.

Keeper's name and address _____ Apiary name / location _____

BeeBase ref. (optional) _____ Sheet number _____

Keep this sheet and your receipts or invoices for at least 5 years after the treatment or disposal, even if the colony has since died or been sold.

If a vet treats your bees, they must give you their name and the treatment details to enter here.

Withdrawal period: copy it from the product label, even when it is 0 days.

A When you buy or receive a medicine Fill in at the time of purchase.

● Date acquired	● Product name	● Batch number	● Quantity acquired	● Supplier's name and address	Receipt kept tick

B When you treat Fill in at the time you give the medicine. One row per treatment.

● Date given	● Hive(s) treated name or number	● Product name and batch number	● Quantity given	● Withdrawal period days, even if 0	Treatment ended NI / EU date	Withdrawal ends date	Given by	● Vet's name if a vet treated or prescribed

C If you dispose of a medicine without using it Out of date, part-used, or no longer needed.

● Date of disposal	Product name and batch number	● Quantity	● How and where it was disposed of

● Required in Great Britain by the Veterinary Medicines Regulations 2013, regs 18–20. Columns marked NI / EU are also asked for under Regulation (EU) 2019/6, art. 108, which applies in Northern Ireland. The other columns follow the National Bee Unit's record sheet. **This is a template, not legal advice.** Checked against legislation.gov.uk and NBU guidance in October 2026; check the VMD or your bee inspector if the rules change.
